Availability: Remote, Hybrid & On-site | **Mobility:** Open to International Relocation

PROFESSIONAL SUMMARY

Results-driven Information Technology professional with solid experience in ERP systems (SAP ECC & S/4HANA), software development, process automation (RPA), and data engineering. Proven track record in providing technical support, building scalable data pipelines in Python, and participating in global digital transformation initiatives. Adept at combining analytical problem-solving with cross-functional collaboration to optimize business processes and secure data integrity.

PROFESSIONAL EXPERIENCE

Secretaria da Educação

October 2025 – February 2026

Technology and Mathematics Teacher

Campo Limpo Paulista, Brazil

- Instructed Middle School and High School students, focusing on the development of logical, digital, and mathematical competencies.
- Employed an active pedagogical approach utilizing official digital materials and IT tools to simplify and clarify abstract mathematical concepts.
- Managed classroom dynamics, resolved conflicts, and organized structured lesson schedules tailored to diverse student maturity levels.

Stefanini

February 2025 – May 2025

Junior SAP Consultant

Remote, Brazil

- Provided Level I and II functional support for SAP S/4HANA end users across FI, CO, and SD modules.
- Monitored master data IDocs for vendors and customers; supported Brazilian tax solution processes including report extraction and transport requests.
- Executed system parameterization (customizing), applied SAP notes in production environments, and coordinated functional testing.

Continental Automotive

June 2023 – February 2025

Information Technology Intern

Várzea Paulista, Brazil

- Delivered comprehensive SAP ECC & S/4HANA functional support (Basis, FI, CO, SD, MM), handling L1/L2 tickets for global end users.
- Configured and supported Procure-to-Pay (P2P) workflows, purchase cycles, and materials management inventories.
- Participated in **Project SPIRIT**, a global SAP harmonization initiative involving Continental units worldwide.
- Monitored vendor/customer IDocs and supported the Guepardo tax solution, facilitating report extraction and transport requests.
- Managed invoice verification and processing for external consultancies, ensuring data accuracy and compliance through the approval workflow.

KEY PROJECTS & AUTOMATIONS

- **Enterprise Automation (UiPath & Python):** Developed robust automations following formal technical documentation, managing GitHub repositories, performing code refactoring, bug fixes, and preventive maintenance.
- **Full-Stack & Data Solutions:** Developed complete desktop/web applications (Flask, Dash, FastAPI, Tkinter), ETL pipelines, and web scrapers (Scrapy, Playwright) integrated with SQL, PostgreSQL, and MongoDB databases.

EDUCATION & ACADEMIC BACKGROUND

Universidade Virtual do Estado de São Paulo (UNIVESP)

Bachelor's Degree in Information Technology

Completed

São Paulo, Brazil

CERTIFICATIONS & SPECIALIZED TRAINING

- **UiPath Automation and Development Academy** – Completed (04/2024)
- **Basic Fundamentals of SAP S/4HANA** (KA Solutions) – Completed
- **Advanced Power BI** (Udemy) – Completed (07/2025)
- **Advanced Python** (Udemy) – Completed (12/2025)
- **Python from Basic to Advanced + RPA + Real Projects** (Udemy) – Completed

TECHNICAL SKILLS

ERP & SAP: SAP ECC & S/4HANA (FI, CO, SD, MM, ABAP, Basis), Customizing, SAP Notes, IDocs, Transport Requests.

Programming & Web: Python (Advanced), Java, C, Flask, FastAPI, Dash, REST APIs, OOP, Data Structures & Algorithms.

Automation & Scraping: UiPath, Python Automation (Excel, Word, PDF, Google Sheets), Scrapy, Playwright, BeautifulSoup.

Data & Databases: ETL Pipelines, Pandas, PostgreSQL, SQL, MongoDB, CRUD, AWS Lambda, Apache Airflow.

DevOps & Tools: Git, GitHub, Version Control, Debugging, Agile workflows.

Languages: Portuguese (Native), English (Basic).
